

Technology Camp 2020

To appeal to a wide variety of interests each week of Technology Camp will focus on a different theme. These themes address issues of culture, career & creativity. Campers will exercise their bodies as well as their minds; we have a scheduled an hour of games in the gym each day. Please make sure your child brings appropriate clothing and footwear for gym activities & outdoor fun! We'll also have 20 minutes of summer reading each day!

All campers will be accessing the Internet during Technology Camp. Parents must sign a parental consent form at the time of registration & all Tech Campers will take an Internet Safety course on the first day of Camp. Our network is protected with excellent filtering software to restrict access to content that is inappropriate for children.
